

The Shropshire Guild of Contemporary Craft was formed in 2001 to promote, display and sell the work of designer makers working in Shropshire. Our members use traditional skills and techniques, alongside innovative modern methods, to produce beautiful contemporary work of the highest calibre.

The Shropshire Guild encompasses all craft disciplines and is currently represented by designer/makers of baskets, ceramics, furniture, glass, jewellery, leather, metal, sculpture, textiles and wood. You can either browse by category or view a complete list of all our craftspeople.
